## Preface

The *Fiscal Reference Tables* provide annual data on the financial position of the federal, provincial-territorial and local governments. The data are presented on both a Public Accounts basis—corresponding to the accounting conventions used to report financial information to the respective legislatures—as well as on a National Accounts basis—as prepared by Statistics Canada and the International Monetary Fund.

The *Fiscal Reference Tables* for the Federal Government—Public Accounts have been revised to reflect the following changes:

- A restatement of the 2008-09 to 2016-17 results to reflect a change in the Government's discount rate methodology used in determining the present value of its unfunded pension obligations, which includes a restatement of direct program expenses, public debt charges, the budgetary balance, public sector pension liabilities and the accumulated deficit.
- The reclassification of certain figures to conform to the current year's presentation.

The *Fiscal Reference Tables* for Provincial Governments—Public Accounts have been revised to reflect the following changes:

- Ontario revenue and expenditure data from 2005-06 onward are not directly comparable with earlier years as they have been restated to reflect a presentation change for hospitals, school boards and colleges. Third-party revenue for these organizations, previously netted against sector expenses, is now classified as revenue. This does not impact the province's annual surplus/deficit results or net debt.
- Ontario expenditure, balance and net debt figures from 2016-17 onward are not directly comparable with earlier years as they have been restated to reflect a change in accounting for pension assets of jointly sponsored pension plans.

Where applicable, the *Fiscal Reference Tables* also incorporate recent Statistics Canada National Accounts revisions.

For information or clarification, please contact Bradley Recker at 613-369-5667, Fiscal Policy Division, Department of Finance Canada, Ottawa, Ontario, K1A 0G5.

## Table of Contents

### Federal Government—Public Accounts

1	Fiscal transactions (millions of dollars)	9
2	Fiscal transactions (per cent of GDP)	10
3	Revenues (millions of dollars)	11
4	Revenues (per cent of GDP)	12
5	Revenues (per cent of total)	13
6	Other taxes and duties	14
7	Expenses (millions of dollars)	15
8	Expenses (per cent of GDP)	16
9	Expenses (per cent of total)	17
10	Major transfers to persons	18
11	Major transfers to other levels of government	19
12	Direct program expenses	20
13	Public debt charges	21
14	Interest-bearing debt	22
15	Total liabilities, net debt and the accumulated deficit	23
16	Unmatured debt held by outside parties	24
17	Actual, cyclically adjusted and cyclically adjusted primary budget balances	25

### Provincial and Territorial Governments—Public Accounts

18	Newfoundland and Labrador	29
19	Prince Edward Island	29
20	Nova Scotia	30
21	New Brunswick	30
22	Quebec	31
23	Ontario	31
24	Manitoba	32
25	Saskatchewan	32
26	Alberta	33
27	British Columbia	34
28	Yukon Territory	35
29	Northwest Territories	36
30	Nunavut	37
31	All provinces and territories (millions of dollars)	38
32	All provinces and territories (per cent of GDP)	38

## **National Accounts**

33	Total government revenue	40
34	Total government expense	41
35	Total government saving and capital and financial account	42
36	Federal government revenue	43
37	Federal government expense	44
38	Federal government saving and capital and financial account	45
39	Provincial and territorial government revenue	46
40	Provincial and territorial government expense	47
41	Provincial and territorial government saving and capital and financial account	48
42	Local government revenue	49
43	Local government expense	50
44	Local government saving and capital and financial account	51
45	Total Canada Pension Plan and Québec Pension Plan	52
46	Total government actual, cyclically adjusted and cyclically adjusted primary budgetary balances	53
47	Federal government liabilities and assets	54
48	Provincial, local and Aboriginal governments' liabilities and assets	55
49	Social security funds	56
50	Total government liabilities and assets	57

## **International Fiscal Comparisons**

51	G-7 general government total tax and non-tax receipts	59
52	G-7 general government total outlays	60
53	G-7 general government financial balances	61
54	G-7 general government net financial liabilities	62
55	G-7 general government gross financial liabilities	63

2017-18	313,606	310,678	2,928	21,889	-18,961	-753		671,254	9,535	-9,426

In 2017-18, the Government implemented, on a retroactive basis, a change in its methodology for the determination of the discount rate for unfunded future benefits. Fiscal results for 2008-09 to 2016-17 have been restated to reflect this change. The Government has recorded an increase of \$875 million to the opening balance of the 2008-09 accumulated deficit to reflect the cumulative retroactive impact of this accounting change on the fiscal results of years prior to 2008-09.

The accumulated deficit increased by \$3,337 million in 2011-12 due to one-time adjustments related to enterprise Crown corporations' and other government business enterprises' transition from Canadian Generally Accepted Accounting Principles to International Financial Reporting Standards. In addition, the opening balance of the accumulated deficit in 2011-12 has been increased by \$1,341 million to reflect the retroactive impact of a change in the Government's approach for accounting for accumulated sick leave entitlements in 2012-13.

The opening balance of the accumulated deficit in 2012-13 has been adjusted to reflect the retroactive impact of changes made in 2013-14 in the accounting for unamortized premiums and discounts arising on the buy-back of bonds (\$5,669 million increase in the accumulated deficit), and in the accounting for loans expected to be repaid through future appropriations (\$1,795 million increase in the accumulated deficit).

Due to a break in the series following the introduction of full accrual accounting, data from 1983-84 onward are not directly comparable with earlier years.

<sup>(1)</sup> In 1996-97, the Canada Health and Social Transfer (CHST) was introduced to replace the Canada Assistance Plan, education support, and insurance and medical care. Since April 2004, the CHST has been divided into the Canada Health Transfer and the Canada Social Transfer. Due to a break in the series following the introduction of full accrual accounting, data from 1983-84 onward are not directly comparable with earlier years.

(1) Includes government holdings of its own debt.

(2) Includes Canada bills, Canada notes and Euro medium-term notes.

(3) Includes Canada Savings Bonds and Canada Premium Bonds.

Due to a break in the series following the introduction of full accrual accounting, data from 1983-84 onward are not directly comparable with earlier years.

Sources: Statistics Canada; Public Accounts of Canada; Department of Finance.

Estimates are based on an update of the methodology developed in the Department of Finance working paper "Fiscal Policy and the Business Cycle: A New Approach to Identifying the Interaction" (2003), Stephen Murchison and Janine Robbins. In particular, this update incorporates the cyclical impact of commodity prices in the calculation of the cyclical component and a treatment of the Employment Insurance Account that is reflective of the current regime.

(1) For some specific years, temporary counter-cyclical fiscal measures (e.g. most temporary measures implemented in response to the 2008-2009 global recession), as well as punctual factors such as one-time gains or expenses (e.g. related to sales tax harmonization, Alberta flood costs), are included in the cyclical component of the balance and therefore excluded from the cyclically adjusted budgetary balance.

Sources: Public Accounts of Quebec (components of revenues and expenditures restated from Québec's Budgetary Statistics documents); for 2017-18: *Pre-Election Report on the State of Québec's Public Finances* - August 2018.

<sup>(1)</sup> Reflects extraordinary losses of the Société générale de financement du Québec of \$91 million, \$339 million, and \$358 million in 2001-02, 2002-03, and 2003-04 respectively. Reflects Hydro-Québec's extraordinary loss of \$1.876 billion relating to the closure of the Gentilly-2 nuclear power plant in 2012-13.

<sup>(2)</sup> Federal transfers are presented on a cash basis until 2004-05 and on an accrual basis thereafter.

<sup>(3)</sup> Includes impact of accounting changes in 2009-10 and 2014-15 and an offset of the extraordinary loss relating to the closure of the Gentilly-2 nuclear power plant in 2012-13.

Due to breaks in the series following the implementation of the accounting reforms, data from 1997-98 onward, 2006-07 onward, and 2009-10 onward are not directly comparable with earlier years. The government has prepared consolidated financial statements since 1997-98. From 2006-07 to 2008-09, the net results of the health and social services and education networks were established using the modified equity method. As of 2009-10, the revenue and expenditure of the networks are consolidated line by line, like those of non-budget-funded bodies and special funds.

Sources: Public Accounts of Ontario (for 2015-16, 2016-17 and 2017-18); Ontario Ministry of Finance for all other years.

Starting in 1993-94, all numbers are presented based on the Public Sector Accounting Board accounting system.

Beginning in 2005-06, revenue and expenditure data are not directly comparable with earlier years as they have been restated to reflect a presentation change for hospitals, school boards and colleges. Third-party revenue for these organizations, previously netted against sector expenses, is now classified as revenue. This does not impact the province's annual surplus/deficit results or net debt (described in the *2017 Ontario Economic Outlook and Fiscal Review*).

Beginning in 2010-11, revenue and expenditure data are not directly comparable with earlier years as they have been restated to reflect the reclassification of government agencies and organizations (described in the *2011 Ontario Economic Outlook and Fiscal Review*).

Expenditure, balance and net debt figures for 2016-17 have been restated to reflect a change in accounting for pension assets of jointly sponsored pension plans. These figures are consistent with the 2017-18 presentation. 2016-17 and 2017-18 are not directly comparable with earlier years.

Sources:

- 1990-91 to 2003-04: *2009-10 Government of Alberta Annual Report*, Executive Summary, Historical Fiscal Summary table, with program expense adjusted to include annual pension provision expense (i.e. annual change in unfunded pension liabilities) beginning in 1993-94;
- 2004-05 to 2007-08: 2005-06 to 2008-09 Government of Alberta annual reports, Consolidated Financial Statements (i.e. Public Accounts of Alberta);
- 2008-09 to 2017-18: *2017-18 Government of Alberta Annual Report*, Budget 2017 Key Results, Historical Fiscal Summary table.

Data are not fully comparable due mainly to various changes to accounting standards. Major breaks in the series include:

- 1990-91 to 1992-93: expense excludes change in unfunded pension liabilities; net financial debt / (assets) does include unfunded pension liabilities;
- 1993-94 to 2003-04: SUCH sector (school boards, universities and colleges, health entities) own-source revenue and expense, and assets and liabilities not included in numbers (grants to these entities are included in expense);
- 2004-05 to 2007-08: SUCH sector included on "net equity" basis (net revenue included in revenue; net assets included in assets);
- 2008-09 to 2017-18: SUCH sector included on "line-by-line" basis (revenue, expense, assets and liabilities reported in revenue, expense, assets and liabilities).

<sup>(1)</sup> Federal transfers include: \$1,582 million for 2013 Alberta flood assistance in 2013-14; less \$423 million in 2014-15, \$80 million in 2015-16, \$29 million in 2016-17, and \$128 million in 2017-18, following revisions to original estimates of disaster recovery costs and associated federal revenue accrued in 2013-14; a \$251 million Fiscal Stabilization Program payment in 2015-16; and accrued revenue of \$495 million in wildfire assistance in 2016-17, less \$67 million in 2017-18, following revisions to original estimates of costs and associated federal revenue accrued in 2016-17.

Sources: Public Accounts of British Columbia and *Financial and Economic Review* documents.

<sup>(1)</sup> Includes the impacts of the joint trusteeship of pension plans, restructuring exit expenses, negotiating framework incentive payments, climate action dividends, and \$1,599 million for Harmonized Sales Tax transition funding repayment in 2011-12. These items are included in total expenditures in B.C. fiscal reporting.

Due to a break in the series following the move to fully comply with generally accepted accounting principles, data from 1998-99 onward are not directly comparable with earlier years.

Source: Statistics Canada, Government Finance Statistics (Table 10-10-0015-01); Department of Finance.

Estimates are based on an update of the methodology developed in the Department of Finance working paper "Fiscal Policy and the Business Cycle: A New Approach to Identifying the Interaction" (2003), Stephen Murchison and Janine Robbins. In particular, this update incorporates the cyclical impact of commodity prices in the calculation of the cyclical component and a treatment of the Employment Insurance Account that is reflective of the current regime.

<sup>(1)</sup> For some specific years, temporary counter-cyclical fiscal measures (e.g. most temporary measures implemented in response to the 2008-2009 global recession), as well as punctual factors such as one-time gains or expenses (e.g. related to sales tax harmonization, Alberta flood costs), are included in the cyclical component of the balance and therefore excluded from the cyclically adjusted budgetary balance.
